

OUR PACKAGING GOES THE EXTRA MILE

We make your packaging work for you.

No more torn, dirty, worn pieces of paper your customer can't read, or even loses -

we print what you want right on the box!

Whether it be your installation instructions, caution notice, warranty information or a rebate offer - we print it on the inside of your box.

So, when your customer opens it, the information you want them to see is right there!

- Nominated for Industry Package of the Year Award through AAPEX.
- Printed paperboard containers replace and eliminate the need for paper inserts.
- The printed instructions on paperboard are much easier for the user to read than printed paper inserts.
- High quality printed boxes convey to the consumer that there's a quality product inside.
- POS promotions can be printed directly on the inside of the box and consumers can use them for auto parts coupons.
- Unless they lose the box the consumer never loses the installation instructions.
- A greater amount of printed information can be displayed on a printed box versus a paper insert.
- Multiple assembly instructions can be printed in different languages versus single insert language instructions. Printed paperboard containers replace and eliminate the need for paper inserts.
